## QUALITY STEAM GENERATORS

All BIEFFE's ironing machines, are created by the application of important technical principles:

- The copper boiler, with external resistor, has a double advantage: do not damage and go quickly under pressure allowing saving energy;
- The boiler can be completely emptied for a thorough cleaning;
- Precise instruments such as: thermostat, steam solenoid valve and pressure relief valve automatically control the proper operation ensuring maximum safety.

Maxi Vapor, Maxi Vapor Plus, Automatic Vapor and Steam Iron with more boiler capacity and more power, are suitable for all those with special needs in ironing: tailors, dry cleaners, laboratories of clothes, hotels and communities. Automatic Vapor is equipped with a system to refill automatically the boiler, this ensures unlimited production of steam. The Magic Vapor is an ironing machine, which thanks to the wide range of accessories, it becomes a useful tool for steam cleaning.

## IRONING TABLES FOR ALL NEEDS

The BIEFFE's ironing boards, in addition to being used in tailoring, dyeing plants, laboratories of clothes and hotels, are also utilized in the domestic area, thanks to their affordable price.

Each model consists of a worktop heated and aspiring equipped with automatic regulation of the temperature, easily foldable and adjustable in height. All tables can be fully equipped by the sleeve arm. The ironing board Jolly (cod.BF291) is equipped with a second blower engine. Blowing allows you to iron velvet and wool perfectly, acting as anti-shine, also revives fibers restoring thickness and softness to lightweight fabrics.
