

NEWLONG®

DS-9A

Overview

If your operation demands precision, durability, and unmatched speed, the Newlong DS-9A is the bag closing machine you've been waiting for.

Built to perform in high-volume environments, the DS-9A delivers top-tier performance across industries such as grain, feed, chemicals, pet food, and more.

Handles a wide range of bag materials including multi-wall paper, woven PP, and jute.

Key Features:

- Achieves speeds of up to 2,700 rpm, reducing bottlenecks and increasing throughput.
- Minimizes oil splatter with a semi-closed lubrication system and delivers consistent stitch quality.
- Mounts on conveyors, pedestal stands, or integrated systems, whatever your production line needs.

TECHNICAL SPECIFICATIONS

MACHINE SPEED
2,700 RPM

STITCH WIDTH
7 - 11.5mm

NEEDLE
DR-H30 #26

SEAM
Double Thread
Chainstitch

CUTTER
Half Auto Thread Cutter
